

**P-20 Dual Credit
Charge to P-20 Dual Credit Task Force**

Presentation Date:	January 14, 2004
Presentation:	Charge to Dual Credit Task Force
Presenter:	Steve Meloy, on behalf of P-20 Committee
Overview:	<p>On November 14, 2003, the board unanimously approved a motion to place on the agenda of the Board of Education P-20 Committee, issues involving Dual Enrollment. Dual Enrollment provides high school students the opportunity to take postsecondary courses in two- and four-year institutions. Currently there exists a Dual Enrollment policy in the state, with consistency in nomenclature, prerequisites, cost and application across the system. A consortium approached the Commissioner of Higher Education and the Executive Secretary to the Board of Public Education with concerns about non-consistency.</p>
Request Decision:	<p>On behalf of the P-20 committee and the Board of Education, convene a task force to examine the current Dual Enrollment programs within the state with emphasis on definition, eligibility, requirements, timelines and costs. Further, that the task force report back to the P-20 committee on its findings my March 31, 2005.</p>
Outlying Issues:	<p>Project will require cooperation of all high schools and colleges with dual Enrollment agreements. The task force shall have authority to collect all Dual Enrollment agreements and study the existing programs for eligibility, requirements, consistency and cost.</p>
Recommendation:	Task Force appointment
Materials:	<p>Limited resources and staff support shall be provided by the Office of the Commissioner of Higher Education and the Board of Public Education.</p>
